a breath away from you

ORGANIC ORANGE BLOSSOM HONEY

From spring to early summer, in Sicily, a hectic work begins by some busy insects whose result is one of the most delicious and renowned varieties of honey in circulation.

Characterized by an intense aroma, the orange blossom honey has a delicate taste and, in some cases, slightly acid. The colour is similar to a pale yellow.

It has a fresh, floral smell which reminds the orange blossoms. Over time, it develops a more fruity smell, similar to that of orange marmalade.

The blossom honey is well known for being relaxing and calming. If you suffer from headache or insomnia you can take a low quantity and enjoy a relaxing effect.

Additional Information

It crystallizes spontaneously, some months after the harvest
