a breath away from you

ORGANIC DRIED TOMATOES

The dried cherry tomato is a product that cannot miss in a kitchen respectful of traditions. It is a concentrate of flavor that can give a touch of character to any dish, from salad to bruschetta.

Dried cherry tomatoes come from controlled supply chains, from producers we have been working with for several years and who believe like us in quality agriculture, healthy and respectful of the environment and of the people who work in this sector.

Description – Production method

Tomatoes are prepared in summer using well-ripe tomatoes that, thanks to direct exposure to the sun, result in a product of a deep red color and a slightly acidic taste. Fresh tomatoes are first of all washed, cut lengthwise and salted. They are then left to dry in the sun until they reach a humidity of 30-35%.

Ingredients

Tomatoes*, salt*

* organic

Additional Information

Gluten-free / Lactose-free
